

“Határtalanul”2019-Szeged and Budapest

Moments of joy, new adventures, challenges and new friends. These are the things that a group of students and some of their teachers from Áprily Lajos High School, from Braşov got to be a part of during the trip to Szeged, Hungary within the confines of the project “Határtalanul”. This experience, which lasted for four days, was shared with the students and teachers of the Kőrösy József Közgazdasági Szakgimnázium in Szeged.

The first day went by with a tiring but fun bus ride, but on the second day we got to explore our host school, starting from learning about it, going to certain classes, and making new friends, all while creating a project with the school’s students. Leaving the school, we went to admire the spectacular Dome of Szeged and spent the rest of the day sightseeing. Some of us even got a tour around the brilliant library of the University of Szeged.

The third day was probably the most anticipated one, because we visited the flourishing capital city of Hungary, Budapest. Arriving in Budapest we started our tour at a 3D gallery, followed by admiring the magnificent St. Stephen’s Basilica, applauding a member of our group who recited a poem at Attila József’s statue and then, after some free time we stopped by the Matthias Church before having a life changing experience at the Invisible Exhibition.

On the fourth and at the same time the last day of our trip we headed home, but we stopped along the way at

Ópusztaszer's Heritage Park, to learn about the beginnings of the Hungarian nation. There we had the chance to appreciate the exquisite work of Árpád Feszty, the Feszty Panorama.

Those four days wouldn't have been so thrilling and delightful without so many people, starting from the amazing teachers, our bus driver who kept us safe, the warm welcoming at the OKSZI guest-house or the restaurants which provided us the delicious meals. We must say a huge thank you to everyone who made this possible, and we cannot wait to offer just as an incredible experience as ours to the students and teachers of Körösy József Közgazdasági Szakgimnázium from Szeged!
