The visit of Szeged's students

On Monday, May 20th the students of **Kőrösy József Közgazdasági Szakgimnázium** came to visit our city and school. We welcomed them with lots of joy, since they were visiting us for the first time since our trip to Szeged.

At our **school**, the students took part in different activities: they went to different classes, explored our school's beauty and history and made a project about Braşov. Making the project was a lot of fun, they learned lots of things about the city's rich past. While working on the project, we also reminisced about our trip to Szeged. After we had finished our work, we visited Braşov's most popular monument, the **Black Church**. Thanks to the enthusiastic tour guides the students had the opportunity to learn about the church and its history. After the educational hours, we had some fun and went on sightseeing.

We went back to school, where a surprise was waiting for our guests: they watched a play by **Grimasz** called Nincs miért (There's no reason).

It was a long day, and like every other day, this one too came to an end. Sadly, we had to say goodbye to our dear friends. Even though they left, our moments with them remain with us. We are grateful for our teachers that made this opportunity possible for us. Thank you for your time and patience.
